

## Patch cords CAT6 U/UTP PVC 0.5 m blue

**GGM CAT605MB**

The CAT6 cords in the GIGAMEDIA range are dedicated to high speed, high performance applications, up to Gigabit Ethernet. Recommended for connecting workstations or patch cords in repeaters, in screened or unscreened installations. Essential component for the installed link, they have a guaranteed quality level ensured by an individual test. Thanks to a rigorous selection of the components and our volume of purchases, we can offer top of the range cords at competitive prices.
